Turn doubt into evidence before publishing

Team 6 – Korea & France

LookItUp

The problem?

Journalists need to provide accurate information, fast, and without taking too much time on it.

In 2026, amongst journalists…

50%

think the primary challenge today is checking for fake news

24%

are not using social media as a source, because it is not reliable enough

49%

are feeling more pressure because of budget issues and faster paced jobs

53%

are refusing to use AI as it not reliable enough to compare true and false information
